

EPS Quality Statement.

EPS Pipeworks Limited has implemented a Management System to meet the needs of National and International Quality System Requirements.

Specifically, the Management System has been developed to conform to the requirements, of BS EN ISO 9001:2015 and covers their role as Pipework Contractors and the fabrication, installation and commissioning of pipework and steelwork.

Quality Objectives will be set that are aligned to the Company's Vision and these, together with this policy and principles will be reviewed for ongoing suitability as part of the Management Review Process to drive Continuous Improvement

In support of the same, our management control system is geared towards the identification, measurement, and control of those key processes that impact on the quality of product and service provided. It is also our aim to continuously improve quality and the efficiency of our process activities by striving to do what is right, do what we say we will do and to;

- Establish meaningful and measurable goals for quality and communicate our performance to interested parties on request
- To comply with the requirements of ISO 9001:2015
- To produce products/services in accordance with customer requirements, approved operational procedures and applicable quality standards.
- Seek opportunities to continuously improve the quality system

The ethos of this policy statement will be communicated to all employees and operatives to support a common direction, a vision for continuous improvement and likewise be utilised as the framework for the identification of measurable improvement objectives.
